

Great Big Green Week – Ketton Litter Pick on Sunday 26th September

As part of the Great Big Green Week, on Sunday morning volunteers filled twenty black bins with rubbish during a group litter pick in Ketton. Organiser David Lewis from the Ketton Climate Action Group commented: “It was wonderful to see so many people from the village giving up their time on a Sunday morning. A special thanks to the Chater Lodge Community Engagement Team and to everyone from 1st Ketton Scouts, Cubs and Beavers. It was great effort by everyone to collect so much litter in just a couple of hours, but it would obviously be better if community litter picks were not necessary. We would encourage everyone to play a small part in protecting the natural environment by taking their rubbish home and making full use of opportunities for recycling.
